General Fittings Srl was founded in 1981 in Brescia, one of the most important Italian industrial districts. What has distinguished the company from the start, and still characterizes it, is the importance given to its values.

Quality of products and staff.
Research & development of new materials, new technologies, and new knowledge.
Professionalism: to be not only a supplier but a partner.
Commitment: to provide customers with a complete service, as well as a valuable product.
Italian style: the attention to details and the value of a 100% Italian production.

GENERAL FITTINGS

Environment
Ambiente

In recent years more and more companies, manufacturing and not, have placed their attention on environmental protection. **And General Fittings is among these.**

How?

Attention to energy and waste of paper in offices, use of certified raw materials for production, and a careful production to respect the environment around us.

Why?

Be **"green"** is not a trend, but a necessity.
To be in line with the most advanced international standards, to be ethically correct, and to be successful in every way.

GENERAL FITTINGS

Certifications
Certificazioni

“Quality means conformity to requirements”

Standard requirements are defined by some of the most important international certification institutes, and General Fittings refers to them to organize all the business processes.

Because the quality is a chain, in which every aspect is crucial in order to have a good product and certified quality. General Fittings, doesn’t only hold numerous product certifications, but also business certifications such as SGS and ISO 9001: 2008, successfully renewed over the years.
